Profile Summary

- Passionate about software innovation and collaborating with cross-functional teams to build scalable, user-centric solutions. Adept at problem-solving with a strong foundation in DSA and full-stack
- 1+ years of hands-on experience in developing scalable full-stack applications using the MERN stack (MongoDB, Express.js, React.js, Node.js) and Next.js, proficient in building responsive UIs with HTML5, CSS3, Tailwind CSS, JavaScript, and TypeScript, with strong expertise in RESTful APIs, server-side rendering, and applying design patterns to deliver clean, maintainable, and reusable code

Education

Indian Institute Of Information Technology(IIIT), Dharwad Bachelor of Technology in Computer Science

November 2020 - May 2024 Dharwad, Karnataka

Experience

Full Stack Developer (Intern) Descriptive Solution Private Limited

May 2024 – January 2024 New Delhi

- Developed a Cyber Threat Intelligence application to help companies identify employees at risk of leaking sensitive information.
- Created modules for cyber threats like phishing, vishing, smishing, and deepfake, allowing companies to run simulated awareness campaigns.

Tech Stack: React.js, HTML5, CSS3, JavaScript (ES6+), Tailwind CSS, Node.js, Express.js, MongoDB.

Full Stack Developer Neural Foundry

March 2025 – Present

- Hyderabad
- Contributed to the design, development, and maintenance of scalable full-stack web applications using modern frameworks and best practices.
- Collaborated with cross-functional teams to deliver seamless integrations, optimize performance, and ensure high code quality.

Tech Stack: React.js, Redux, HTML5, TypeScript, Joy UI, Node.js, Express.js, MongoDB, Jest(react testing library).

Projects

Ecommerce Web Application GitHub Live

December 2024- January

2025

- Designed and developed a fully functional e-commerce web application with features like user authentication, product browsing, and secure payment integration.
- Implemented a dynamic product catalog and search functionality to enhance user experience and improve accessibility.
- Integrated a shopping cart, order tracking system, and responsive UI to ensure seamless interaction across devices.
- Tools and technology used: JavaScript, React, Bootstrap, MongoDb, ExpressJs, ReactJs, NodeJs.

Video Chat Application GitHub Live

January 2023- may 2023

- This is a webRTC technology-based web application where user can make a video call with strangers and share their code to connect with known people
- Users can engage in chat during a video call, share their screen, and access recording features.
- Tools and technology used: React, Java Script, WebRTC, socket.io, Stun server, Turn server, Signaling Server, SDP.

Skills

Languages: C/C++, JavaScript (ES6+), TypeScript, SQL, HTML5, CSS3.

FrameWorks: React.js, Next.js, Redux, Express.js, Node.js.

Tools Platforms: Git, GitHub, RESTful APIs, VsCode, Postman, React Testing Library (Jest).

Styling UI: Tailwind CSS, Bootstrap, Material UI.

Database: MongoDb, MySQL

Soft Skills: Adaptability, Collaborative Problem-Solving, and Growth Mindset

Achievements

- Solved over 600+ DSA problems on GeeksforGeeks, achieving 11th rank in the institute.
- Solved over 250+ DSA problems on LeetCode and CodeChef platforms.
